

March 17, 2011

From: Dr. Masafumi Maeda
Executive Vice President(Advisory board member) /Vice President
The Radiological Countermeasure Project Team
To: the Head of Academic Organizations

A Study Session on the Basics of Radiation and Radioactivity

The University of Tokyo's Radiological Countermeasure Project Team is to hold a study session on "the Basics of Radiation and Radioactivity" for better understanding of news reports about and information on radiation and radioactivity, as well as for safer daily activity. Please inform international students of your organization about the study session.
